HEATLEYS
SAFETY & INDUSTRIAL

Customise & Personalise your Heatleys Products
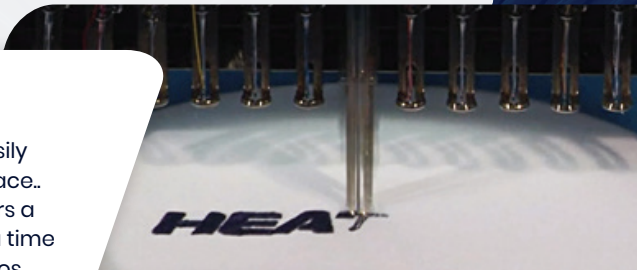

In addition to safety and industrial items, Heatley's offers a full suite of branding solutions catered to your business' needs.

Our custom embroidery module means you can easily upload, design and order your uniforms at your own fingertips. We can also engrave your tools or print your company logo on your own tapes.

Embroidery

Our custom embroidery module means you can easily upload, design and order your uniforms all in one place.. Our online embroidery store is like no other and offers a completely customisable experience and saves you time with individual uploads of employee names and logos.

Laser Etching & Engraving

Customise or help identify your tools and other capital equipment with Heatleys laser etching and engraving service.

This service is ideal for customers who want their logo, part or asset control number on their tools or equipment and not have to worry about it fading or rubbing off.

Custom Tapes

Heatleys can also customise your products, promotional items, tapes and packaging. With a 70% market share in Australia, we offer a wide range of adhesive tapes and packaging products including custom colours printing and branding. Heatleys have their own on-site manufacturing equipment to customise tapes for customers.

Wide range of solutions to access stock anytime, anywhere.

Contact our Inventory Solutions Specialists to discuss your custom inventory management plan.

Heatleys Embroidery Solutions

Heatleys Online Embroidery Store

Our online embroidery store is like no other and offers a completely customisable experience. Do not waste time with individual uploads of employee names and logos.

Our online embroidery capabilities can cater for bulk uploads, customised positioning, colouring and sizing of all logos and texts and provides an efficient and easy shopping experience by saving all your uploads, ready for your next order.

How it works

Our online embroidery store is a user-friendly system designed to save you the time and hassle of communicating back and forth with a representative, explaining your embroidery needs.
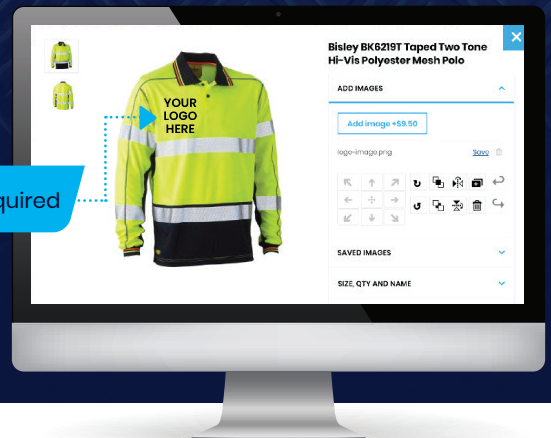

By following these simple steps, you can arrange all your embroidery in one place, in one order.

- **Customisation,** before you add your chosen items to your shopping cart, click on the "customise" button to add embroidery to your order.

- **Upload hi res images** of your logo and position exactly where you want your logo to appear on the product.

- **Bulk upload** employee names and customise colours, sizes and fonts.

- **Save time**, our embroidery store saves all your uploads, saving you time for when you make your next order with us.

- **Simple check out**, the cost of the embroidery will be added to the total amount of your purchase, so you know exactly how much it will be before you add items to your cart and complete the payment process.
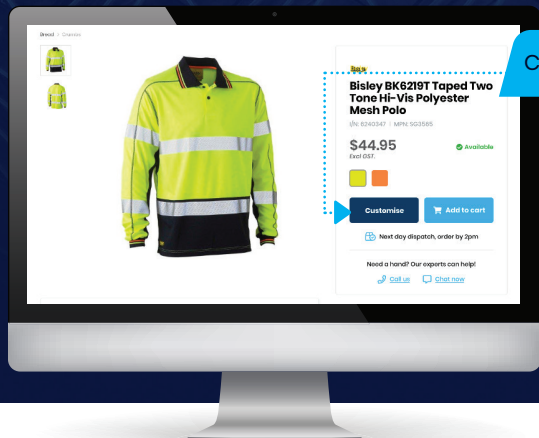

Customise your product

Position logo as required
